Queries
Recovering Costs
► By law, the NPDB must recover the full cost of operations. It does so by collecting fees for each query.
► Fees are examined every 2 years; last modified in October 2016.

Types of Transactions
► Reporting (no charge).
► Querying (by hospitals and health care organizations):
  • $2 for a one-year continuous query subscription.
  • $2 for a one-time query.
Using Continuous Query
Requires the same practitioner information
Subscribers continue using their subject databases

Fee: $2.00 per enrollee per year
- No separate query fee
- Upon enrollment, receive the same report information as a one-time query response
- Continuously queries the NPDB and notifies subscribers of any new reports
- No need to re-query for reappointments or temporary privileges extensions
Resources
The Guidebook is NPDB’s policy manual containing detailed information to help health care entities understand and comply with reporting requirements.

Is It Reportable?

Should a medical malpractice payment made exclusively for the benefit of a clinic, hospital, or other health care entity be reported?

No. Medical malpractice payments made solely for the benefit of a clinic, hospital, or other health care entity should not be reported to the NPDB. However, a payment made for the benefit of a professional corporation or business entity consisting only of a sole practitioner is reportable to the NPDB.
