

Introduction to the New Data Bank Web Site

With a crisp, uncluttered design, the new Data Bank Web site is not only good-looking; it is efficient, too! The site features two main partitions for **HEALTH CARE ORGANIZATIONS** and **PRACTITIONERS**.

Navigation is easy, with **MULTIPLE ROUTES** to the information you are looking for.

Secondary pages feature a sidebar with submenus. Many topics on the new Web site are broken out into

How To and *About* sections to help you zero in on where you want to go.
