¹ For State Licensure or Certification Actions against practitioners you may not select multiple Adverse Action Classification Codes when reporting any one of the following codes: 1138 Summary or Emergency Limitation or Restriction on License, 1139 Summary or Emergency Suspension of License, 1149 Denial of Initial License, or 1189 Publicly Available Negative Action or Finding. Additional actions should be submitted in separate reports. You may select all other Adverse Action Classification Codes available, in any combination, up to the five allowable codes.

² Codes 1138 and 1139 against physicians and dentists must be based on the professional competence or conduct of the subject.

³ Multi-State licensure privilege codes are only valid for actions against practitioners when such actions are being taken by a remote state subject to a multi-state Licensure Compact. These codes cannot be used by the state which issued the license, nor can they be used in conjunction with any Licensure Actions.

AAR Type of Action Codes

Table 117 - AAR Type of Action Codes

Code	Type	Description
1 (SL)	Licensure (State Licensure or Certification)	State Licensure or Certification actions are adverse actions taken by State licensing and certification authorities related to the license, certification, or registration of health care practitioners, providers, and suppliers. State licensing actions include State professional and health care facility licensing sanctions. State licensing actions against physicians and dentists that are based upon the subject's professional competence or conduct are reportable to the NPDB under provisions of Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60. Section 1921 of the Social Security Act 45 CFR Part 60, expands the reporting requirements of the NPDB to include all licensure actions taken against all healthcare practitioners, as well as healthcare entities: not just physicians and dentists. All State licensing actions against health care practitioners, providers, and suppliers are reportable to the NPDB under Section 1128E of the Social Security Act and 45 CFR Part 60.
2 (FL)	Licensure (Federal Licensure)	Federal licensure actions are adverse actions taken by Federal licensing and certification authorities related to the license, certification, or registration of health care providers, practitioners, and suppliers. Federal licensure actions include Federal CLIA certification actions; Federal DEA registration actions; and Federal FDA licensing, certification, and registration actions. These actions are reportable to the NPDB under Section 1128E of the Social Security Act and 45 CFR Part 60. DEA registration actions against health care practitioners also are reportable to the NPDB under Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60.
3 (CP)	Clinical Privilege (Includes Panel Membership)	Clinical Privilege actions are adverse actions taken by hospitals and other health care entities related to the authorization of health care practitioners to provide health care services, including actions related to a practitioner's membership on the medical staff or panel, and based upon the subject's professional competence or conduct. These actions are reportable to the NPDB under Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60.
4 (HP)	Health Plan	Health plan actions are adverse actions that are taken by a health plan against a health care practitioner, provider or supplier and that are reportable to the NPDB under Section 1128E of the Social Security Act and 45 CFR part 60. These actions must meet the regulatory definition of "other adjudicated actions," which requires that they: 1) be formal or official actions; 2) include the availability of a due process mechanism; and 3) be based on acts or omissions that affect or could affect the payment, provision or delivery of a health care item or service. The definition specifically excludes clinical privileging actions or paneling decisions (which normally are the result of a formal peer review process). However, quality actions that include the availability of due process are reportable. An example of a reportable health plan action would be the termination of a practitioner's contract to provide health care services, as long as it meets the three specified criteria.

Code	Type	Description
5 (ED)	Exclusion or Debarment	The exclusion or debarment of a health care practitioner, provider, or supplier from participating in and/or contracting with a Federal or State health care program is reportable to the NPDB under Section 1128E of the Social Security Act and 45 CFR Part 60. Exclusion of a practitioner from the Medicare and Medicaid programs is reportable to the NPDB under a Memorandum of Understanding with the Office of Inspector General, and the Centers for Medicare & Medicaid Services, U.S. Department of Health and Human Services.
6 (PS)	Professional Society	Professional Society actions are adverse actions taken by associations of health care practitioners that follow formal peer review processes for the purpose of furthering quality health care and that are based upon the subject's professional competence or conduct. These actions are reportable to the NPDB under the provisions of Title IV of the Health Care Quality Improvement Act of 1986, as amended, and 45 CFR Part 60.
7 (PR)	Peer Review Organization	Peer review organization actions include any recommendation by a peer review organization to sanction a health care practitioner. These actions are reportable to the NPDB under the provisions of Section 1921 of the Social Security Act and 45 CFR Part 60.
8 (AC)	Accreditation	Private accreditation organization actions include final determinations of denial or termination of an accreditation status from a private accreditation entity that indicates a risk to the safety of a patient(s) or quality of health care services. These actions are taken against health care entities that have received or are attempting to receive accreditation. These actions are reportable to the NPDB under the provisions of 45 CFR Part 60.
9 (GA)	Government Administrative	Government Administrative actions are reportable to the NPDB under Section 1921 of the Social Security Act, and Section 1128E of the Social Security Act and 45 CFR Part 60. State actions are reportable under Section 1921 of the Social Security Act and Federal actions are reportable under Section 1128E of the Social Security Act. They encompass adverse actions reportable to NPDB that are not classified elsewhere. This category includes any publicly available negative action or finding by Government agencies (Federal or State) that certify health care practitioners, providers, and suppliers for participation in a Government health care program. In addition, other Government Administrative actions include any other adjudicated action or decision by an authorized Government agency (Federal or State) against a health care practitioner, provider, or supplier. These adjudicated actions or decisions may include, for example, personnel actions, employment disqualifications, and contract terminations.

JOCR Type of Action Codes

Table 123 - JOCR Type of Action Codes

Code	Type	Description
10	Criminal Conviction (Guilty Plea or Trial)	Federal or State criminal convictions against health care practitioners, providers, and suppliers. Convictions must be related to the delivery of a health care item or service. Convictions include guilty pleas and findings of guilt by either a judge or a jury. These actions are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61.
20	Deferred Conviction/Pre-Trial Diversion	Federal or State court actions in which a healthcare practitioner, provider, or supplier has entered into participation in a first offender, or other program or arrangement where the conviction has been deferred or held in abeyance. These actions must be related to the delivery of a health care item or service. These actions are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61.
30	Nolo Contendere (No Contest) Plea	Acceptance by a Federal or State court of a nolo contendere or no contest plea by a health care practitioner, provider, or supplier in a matter related to the delivery of a health care item or service. These actions are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61.
40	Civil Judgment	Civil judgments against health care practitioners, providers, and suppliers in Federal or State courts. Judgments must be related to the delivery of a health care item or service. This reporting requirement does not include settlements in which no findings of liability have been made. These actions are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61.
50	Injunction	Civil actions taken against health care practitioners, providers, and suppliers that seek to stop a specific activity, such as the continued production or distribution of a violative product or the provision of a service. The action must be related to the delivery of a health care item or service. These actions are reportable to the HIPDB under Section 1128E of the Social Security Act and 45 CFR Part 61.

Report Transaction Type Codes

Table 152 - Report Transaction Type Codes

Code	Description
I	Initial: The first record of an adverse action that is submitted to and processed by the NPDB. An Initial Report is the current version of the report until a Revision to Action, Correction, Void, or Notice of Appeal is submitted.
C	Correction: A report that corrects an error or omission in an existing report. The Correction will supersede the contents of the current version of a report in the NPDB. It should be submitted as soon as possible after a reporting error or omission is discovered. Corrections may be submitted as often as necessary.
V	Void: The retraction of a report in its entirety from the NPDB. The report is removed from the subject's disclosable record.
R	Revision to Action: A new action that relates to and modifies a previously reported adverse action, (e.g., reinstatement of a license, extension of an exclusion from a Government program, restrictions of clinical privileges lifted, previously stayed license revocation imposed). A correction of a Revision to Action Report may be submitted via the IQRS or QRXS
O	Correction of Revision to Action: A report that corrects a previously submitted Revision to Action Report. This correction will supersede the contents of the current version of the Revision to Action Report in the NPDB. It should be submitted as soon as possible after a reporting error or omission is discovered. Corrections may be submitted as often as necessary.
A	Notice of Appeal: A report notifying the NPDB that a subject has formally appealed a previously reported adverse action. Under Section 1921 and Section 1128E, reporting entities must submit a Notice of Appeal whenever a previously reported adverse action is on appeal. A Notice of Appeal is separate and distinct from a subject's dispute of an NPDB report. There is no legal requirement for this type of report to be submitted to the NPDB under Title IV.

Void Reason Codes

Table 153 - Void Reason Codes

Code	Description
V0	The report was submitted in error (e.g., wrong practitioner named; duplicate report; payment not delivered; action never finalized).
V1	The action was not reportable because it did not meet NPDB reporting requirements.
V2	The action was overturned on appeal. The action was reversed because the original action should never have been taken.
